ENERGY EFFICIENCY TIPS

Facts from the US Department of Energy

COLD CLIMATE TIPS

Double-pane windows with low-e coating on the glass reflect heat back into the room during the winter months.

Repair and weatherize your current storm windows, if necessary.

Install tight-fitting, insulating window shades on windows that feel drafty after weatherizing.

Keep windows on the south side of your house clean to maximize solar gain.

Close your curtains and shades at night; open them during the day.

WARM CLIMATE TIPS

Install white window shades, drapes, or blinds to reflect heat away from the house.

Close curtains on south- and west-facing windows during the day.

Apply sun-control or other reflective films on south-facing windows to reduce solar gain.

Install awnings on south- and west-facing windows.

Windows with spectrally selective coatings on the glass reflect some of the sunlight, keeping your rooms cooler.

Choose those the best [home custom blinds](#) that fit your tastes. Like other businesses, the window covering industry has some different language like others and you can not immediately understand. When talking about window blinds you'll find many different kinds of window blinds but from them all, the most highly in need are Venetian Blinds, Roller Blinds, Roman Blinds. Out of these three the Venetian blinds come in three different materials which is Aluminium(also known as mini blinds), Wood and Eco-wood(also known as faux-wood, Eco-wood or PVC blinds). The aluminium Venetian blinds are often utilised in the kitchens and bathroom and mostly in the business offices. The Aluminium Venetian blinds are a very inexpensive way to cover a window and it contains some common colours like silver and white and they can be seen in a variety of different colours to match the inside of your office and your home too.

“Creativity is allowing yourself to make mistakes. Design is knowing which ones to keep.” — Scott Adams

After the next window blinds are the Wooden Venetian blinds. Wooden Venetian blinds are a very stylish way to cover your windows and dress up the inside of your home. Wooden Venetian blinds are made of lightweight wood also referred to as base wood. Base timber is the perfect material all due to its robustness and it easily wraps as compared to other woods over time. Wooden Venetian blinds are a bright choice for big windows. The next window blinds are Eco-wood Venetian blinds. Eco-wood blinds are very popular because it is made from the materials like PVC or plastic but include some wood as well. The Eco-wood Venetian blinds are popular due to its durability and they easy to clean. They are good for areas that are vulnerable to moisture as they do not warp readily.

The common colour for Eco-wood dividers is white. After all that now comes the roller blinds. The roller blinds are the window coverings that can easily be opened by rolling the colours

up on a cylinder that runs over a window. The roller blinds are not that much costly as compared to others and they are still on the top of list. They could last for many years without showing signs of downgrading. The next and the last window blinds are Roman blinds. They are operated by rolling segments of the blind up to a stack. They provide you with a softer feel in your house and they can often become well-matched with the other furnishings as well. They provide you with an attractive alternative to traditional window blinds and is well suited to the living environments. So, blinds offer both practical and trendy elements in regards to your space. Good dividers may be practical while offering a breathtaking style that suits your own unique taste.
